HEATING

Z200

The most compact heat pump

Choosing the right heating

Z200

For in-ground, semi-in-ground and above-ground pools, up to 70 m³ water volume

Suitable for all types of water treatment (chlorine treatment, salt or bromine chlorinator, ozone, etc.)

4 models from 5 to 11 kW

Heat pumps are the most economical 'heating' solution since nearly 80% of the energy used to heat your pool comes from the air!

E.g.: 1 kW of electricity consumed = 5 kW returned to your pool.

Efficient, it is economical in use.

Z200 provides a simple and economical response to heating your swimming pool, taking advantage of Zodiac® quality and service.

Ultra-compact

The Zodiac® Z200 is a heat pump for swimming pools combining design and performance, ideal for heating small pools. The dimensions of this heat pump have been reduced as much as possible to occupy a minimum of space in the garden.

Ultra-economical

The Z200 range is our basic model.

These heat pumps incorporate all Zodiac® technological know-how and a very high level of performance.

Offering excellent value for money, this is the best way to get access to a simple, reliable and economical heat pump (for swimming pools up to 70 m³).

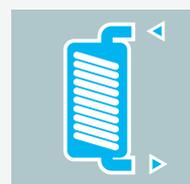

Ultra-simple

Using the LCD panel, press the Start button, choose the desired temperature and the rest is taken care of.

Z200 is easy to install using the supplied connectors.

SPECIFICATIONS	Z200 M2	Z200 M3	Z200 M4	Z200 M5
Performance conditions as per French standard NF - 414: Air 15°C / Water 26°C / Relative Humidity 70%				
Power consumption (kW)	1	1.6	2.1	2.6
Power returned (kW)	4.6	6.3	8.4	10.2
PC (Performance Coefficient)	4.5	4	4	4
Performance conditions 1: Air 15°C / Water 24°C / Relative Humidity 70%				
Power consumption (kW)	1	1.6	2.1	2.6
Power returned (kW)	4.7	6.5	8.6	10.5
PC (Performance Coefficient)	4.7	4.1	4.1	4.1
Performance conditions 2: Air 28°C / Water 28°C / Relative Humidity 80%				
Power returned (kW)	6.1	9	12	14.1
PC (Performance Coefficient)	5.6	4.7	4.8	4.7
Power rating	Models from 5 to 11 kW			
Pool volumes	Up to 70 m ³			
Compressor	Rotary vane			
Coolant fluid	R410A			
Power supply	Single phase			
Noise level at 10 m	36.6 dB(A)			
Simple defrosting	YES			
Intensive all-year defrosting	NO			
Cooling (reversibility)	NO			
Can be installed in a plant room	NO			
Remote control	As an option			
Heating priority function	YES			

Exclusive and patented Titanium heat exchanger, developed by Zodiac®. Anti-corrosion treatment for heating all swimming pools, whatever the water treatment used.

Compatible with Zodiac® EasyConnect: The first installation kit without tools or plumbing. Fits all types of rigid-wall swimming pools.
